

schülke -†

Water-in-oil emulsion to nourish and regenerate dry and exposed skin, with a pleasant and fresh scent.

esemtan[®] body lotion

Our plus:

- moisturising water-in-oil emulsion
- regenerates dry skin
- contains the natural-identical active ingredient of lime-tree flowers

Product features

- easy-spreading
- deodorant effect due to farnesol (active ingredient of lime-tree flowers)

Application areas

In order to maintain the skin intact when it is dry, it is recommended to use esemtan[®] body lotion because of the richness of water-in-oil preparations, after end of work, after strongly skin-stressing activities or at night.

esemtan[®] body lotion is also appropriate to nourish dry and aging skin.

Application methods / indications

Apply esemtan[®] body lotion to the skin and rub it in gently. In order to ensure a hygienic use, using dosing pumps or dispensers is recommended.
