s&m® wash lotion

Soap-free washing lotion based on a combination of non-irritant tensides and care components.

Our plus:

- gentle on the skin, effective cleaning
- good skin and mucous membrane tolerance
- soap-/alkali-free und pH skin neutral
- preserves the acid mantle of the skin
- fresh scent

Product properties

- Using gently cleaning tensides and special care components produces a smooth dirt removal and at the same time a good skin tolerance so that the skin remains smooth and soft when s&m® wash lotion is applied.
- The fine foam, the fresh perfume as well as the clear green colour make s&m® wash lotion to a user-friendly preparation.
- The application of s&m® wash lotion gives a pleasant feeling of neat cleanliness.

Application areas

- For gentle washing and bathing, even of patients and before surgery.
- For gentle cleaning of the hands, also before surgical and after hygienic hand disinfection with alcoholic hand disinfectants.
- Also ideal when taking a shower.

Application concentrations / Contact times

Hand washing

Apply approx. 2 – 3 ml s&m® wash lotion via dispenser or directly to one palm, froth it by adding some water, wash thoroughly, rinse and dry. Before applying alcoholic hand disinfectants, careful drying must generally be ensured.

Partial or full bath

Add the required quantity of s&m® wash lotion (approx. 20 ml per 100 l water) while water is running in.

Taking a shower

s&m® wash lotion is to be used like soap or commercial shower lotions while taking a shower.

Washing patients

Put some s&m® wash lotion on a wet flannel, spread it over the body and wash it off using water.

Decanting hopper	117 901

Please find detailed information in the schülke product information "Accessories and Dosing Aids".

Environment Information

s&m® wash lotion is available in bottles and cans.

The bottle and can containers are made of polyethylene (HDPE) and are labelled accordingly.

The caps are made of PP (except for the can and 1 l Euro bottle: HDPE). The labels are made of PE. This enables a homogenous separation for an optimal recycling.

The disposable packages of s&m® wash lotion bear the "Green Dot" and should be introduced into the Dual System when completely empty.
