

## kodan® wipes

Ready-to-use disinfection wipes for antimicrobial treatment of limited skin areas as well as for disinfection of non-medical surfaces.

### Our plus:

- for application on skin and surfaces
- very wide antimicrobial efficacy
- very good skin tolerance
- fast drying of surfaces

### Application areas

- for disinfection and cleaning of skin and hands of patients, nursing staff and visitors
- for disinfection of non-medical surfaces such as toilets, floors, door handles and other work surfaces

### Instructions for use

kodan® wipes can be torn off one after another and are immediately ready for use. Rub on the skin areas or surfaces to be treated in the application areas consistently and thoroughly with the moist wipe and allow to take effect. If required, use several wipes for application to larger surfaces.

### Microbiological efficacy

kodan® wipes are effective against:

- bacteria incl. Tb • fungi (Candida albicans) • enveloped viruses\* (incl. HIV, HBV, HCV, herpes simplex viruses) • influenza viruses\* (incl. influenza A/H1N1 and A/H5N1) • rotaviruses • adenoviruses
