

wash lotion based on selected moisturising agents, mild surfactants and Octenidine

octenisan® wash lotion

Our Plus

- mild and gentle wash lotion for the skin and hair
- for whole body washing against MDRO
- suitable for all skin types
- skin-neutral pH value
- free of artificial colours and perfumes

Application areas

- for whole body washing (incl. hair washing and showering) that is gentle to the skin
- suitable for all skin types, even skin that is sensitive to soap or susceptible to allergies
- for mild and gentle washing of patients prior to surgery
- especially suitable for use on intensive care and infection wards

Product Profile

Microbiological efficacy

octenisan® wash lotion has proven efficacy:

In a clinical trial by the University Hospital Aachen an excellent MRSA eradication rate of approx. 80% was found in octenisan® Wash Lotion. Over a period of 26 months (January 2003 - March 2005) the MRSA skin status of all MRSA-positive patients was tested in the nasal atrium, on the forehead, in the axilla, the groin, in wounds and in the throat. The patients included in the trial were washed with octenisan® every day for five days (including their hair). The cleaning performance was checked based on a predetermined procedure with fresh skin swabs. Minor wounds were treated with octenisept®. MRSA was detected in skin screening of 105 patients out of 318 altogether (= 33%). Of these 105 patients it was possible to carry out procedures as per the trial protocol in the case of 45 patients (= 43%). MRSA was persistently eradicated in 35 out of 45 patients altogether (= 78%) over an observation period of 14 days.

PD Dr. med. S. W. Lemmen
University Hospital Aachen
Aachen, May 30, 2005

Instructions for use

When washing patients apply octenisan® wash lotion undiluted to a damp facecloth and rub evenly on the appropriate parts of the body for about 1 minute and rinse off. When showering or washing hair octenisan® wash lotion should be used like commercially available products.

Microbiological efficacy

Efficacy	Concentration	Contact time
MRSA	ready-to-use	1 min.
<i>Pseudomonas aeruginosa</i>	ready-to-use	1 min.

octenisan® wash lotion

Product data

Ingredients:

Aqua, Cocamidopropylamine oxide, PEG-7 Glyceryl cocoate, Glycerin, Hydroxyethylcellulose, Lactic acid, Octenidine HCl, Allantoin.

Thanks to its balanced formulation of various active ingredients incl. Octenidine and Allantoin octenisan® has good skin-care properties.
