

Colour- and perfume-free protective lotion for normal skin

with Jojoba Oil

sensiva[®] protective emulsion

Our Plus

- soft skin care
- protective lotion (according TRGS 401 - German regulation)
- easy-spreading
- does not reduce the effect of hand disinfection (desderman[®] care and desmanol[®] pure)
- colour- and perfume-free
- dermatologically tested

Application areas

- to be applied to clean, dry hands
- special skin protection for normal and stressed skin
- for frequent use while working
- for use in the food processing industry

Product Profile

- oil-in-water emulsion
- contains Jojoba oil, which preserves the natural acid mantle (hydrolipidic film) of the skin through a balanced supply of fat and moisture and leaves no unpleasant greasy film
- nourishes the skin, making it smooth and resistant

Instructions for use

Apply and rub into the skin.
Apply to the back of your hand and rub at first the backs of your hands together, then the insides of your hands.
When applying pay particular attention to the places in between your fingers and the nail bed.
When applying product always use a pump or dispenser to prevent contamination..
Use it regularly during daily work especially before skin-stressed activities, e.g. when starting with your work, after breaks and after each hand cleansing.

The product does not contain perfume. Nevertheless, it may be that it does not always smell the same on the skin. This is because the skin structure of every human being is unique. Thus, an odorless product is perceived differently on different hands.

- For hygienic reasons, the product should be extracted via pump or dispenser
- Rub the product gently into clean/dry hands
- Apply the product to the back of the hand and spread the cream with the back of the other hand
- Afterwards, apply the cream to the fingers also, and finally to the inside of the hands
- While rubbing it in, pay special attention to the areas between the fingers and to the nail beds

sensiva[®] protective emulsion
