

Additive for admixing with schülke surface disinfectants for care of floor coverings.

## s&m care additive

### Our Plus

- intensive cleaning effect
- tested ability to mix with schülke surface disinfectants
- reduces the adherence of dirt to floor surfaces

### Application areas

Additional care of floors.

### Instructions for use

Depending on the type of floor, additional care may be useful. As this product contains cationic active ingredients, the combination with cleaning agents, cleaning additives or wipe care products can affect the microbiological effectiveness and cause problems during application. schülke should therefore be consulted before attempting mixing the products.

# s&m care additive

## Product data

Labelling according to Regulation (EC) No. 648/2004:  
5 - 15 % non-ionic surfactants, perfumes, Linanool,  
Hexylcinnamal, Amylcinnamal, Benzylsalicylate,  
Methylisothiazolinone, Methylchloroisothiazolinone

### Chemical-physical data

Color	pink
Density	ca. 1,00 g/cm <sup>3</sup> / 20 °C
Flash point	> 60 °C / Method : DIN 51755 Part 1
Form	liquid
pH	4 - 5 / 20 °C / concentrate
Viscosity, dynamic	No data available

## Special advice

**Use the product with caution. Always read the label and product information before use.**

The miscibility with schülke surface disinfectant preparations has been examined and tested from a microbiological point of view on the basis of the effectiveness requirements of the Association for Applied Hygiene (VAH). The preparation can be mixed with the working solutions of the following schülke surface disinfectant preparations: antifact® AF (N), pursept® AF, s&m cleaning additive and terralin® protect. In doing so, the mixing ratio should not exceed the chosen application concentration of the disinfectant. To achieve the desired additional optical care effect on floor coverings, we recommend using the s&m care additive as a special wipe care. In conjunction with the well-known schülke surface disinfectant preparations, the s&m cleaning additive and the s&m care additive offer a system solution for floor preparation tailored to individual needs with regard to the desired effects: disinfection effect, cleaning performance and achievable visual appearance.

## Information for order

Item	Delivery form	Item no.
s&m care additive 2 l bottle	5/Carton	on request

These products are not available in every country. For more information please contact our local subsidiary or distributor.

## Application aids
