

## octenisan® antimicrobial wash mitts

- Make sure the skin is completely moistened with the wipes, especially in the area of the armpits, areas between the fingers and between the toes as well as other skin folds.
- Rinsing afterwards with water is not necessary.
- octenisan® wash caps may be used for washing of the hair.
- If the patient wants the feeling of classical hair washing, octenisan® wash lotion can be used.

<p><b>Step 1</b></p> <p><b>Open the packet and take 1 wipe out.</b></p>	<p><b>Step 2</b></p> <p><b>Wipe face, neck and chest (paying attention to area around nose and ears).</b></p>	<p><b>Step 3</b></p> <p><b>Use 2nd wipe on right arm and armpit.</b></p>	<p><b>Step 4</b></p> <p><b>Use 3rd wipe on left arm and armpit.</b></p>	<p><b>Step 5</b></p> <p><b>Use 4th wipe on abdomen, front.</b></p>
