

Intensive care and regeneration for demanding and weakened skin

with Panthenol

sensiva[®] regeneration cream

Our Plus

- rich regeneration cream
- encourages skin regeneration
- colour- and perfume-free
- dermatologically tested

Application areas

- to be applied to clean, dry hands
- special skin care and regeneration of stressed and damaged skin
- after work, e.g. over night
- for use in the food processing industry

Product Profile

- rich regeneration cream, which adjusts to the skin natural hydrolipidic film
- contains Panthenol, which supports the skin regeneration and soothes skin irritations. Restores the smoothness and elasticity of the skin.

Instructions for use

Apply and rub into the skin.

Apply to the back of your hand and rub at first the backs of your hands together, then the insides of your hands.

The product does not contain perfume. Nevertheless, it may be that it does not always smell the same on the skin. This is because the skin structure of every human being is unique. Thus, an odorless product is perceived differently on different hands.

sensiva[®] regeneration cream
