

Skin-friendly colour- and perfume-free wash lotion

with Allantoin

sensiva[®] wash lotion

Our Plus

- soap-free wash lotion with skin-compatible surfactant
- gentle on skin
- mild cleaning
- colour-, perfume and lanolin-free
- dermatologically tested

Application areas

- for nourishing hand and body cleaning
- also ideally suitable for the food-processing industry
- for hand cleaning before surgical and hygienic hand disinfection

Product Profile

- soap-free, skin-friendly detergent substance (Syndet)
- contains Allantoin which has a soothing effect on the skin, moisturizes and supports cell renewal

Instructions for use

Hand washing

Moisten hands with water. Put approx. 2 - 3 ml sensiva wash lotion into the palm, foam it up with water, wash it, rinse it well and dry it.

Generally ensure a thorough drying before the application of hand disinfection.

sensiva® wash lotion

Environmental information

schülke manufactures products economically and with advanced, safe and environmentally friendly production processes while at the same time maintaining out high quality standards.

sensiva® wash lotion is available in bottles and cans. The bottle and can containers are made of polyethylene (HDPE) and are labelled accordingly.

The caps are made of PP (except for the can and 1 l Euro bottle: HDPE). The labels are made of PE. This enables a homogenous separation for an optimal recycling.

The disposable packages of sensiva® wash lotion bear the "Green Dot" and should be introduced into the Dual System when completely empty.
