COLOUR FREE

octenisan® wash mitts

Our plus:

- excellent skin compatibility
- pH neutral formulation
- contains allantoin for gentle and soothing skin cleansing
- ready to use, no rinsing required
- easy and convenient to use, saves time
- can be heated for patient comfort

Application areas

- for bedside cleaning and washing of the whole body
- suitable for washing bedridden or immobile persons in need of care
- ideal for limb cleansing eg. leg ulcers

Application

If required, the packaging can be heated in the microwave (30 seconds / 600 W) or cooled in advance for a refreshing wash. Open the softpack carefully and take out an octenisan® Wash Mitt. Insert hand into the wash mitt and gently apply light pressure to the area of the body to be cleaned. Move the wash mitt over the skin .

Make sure the skin is completely moistened, especially in the armpit region, between the fingers and between the toes as well as other skin folds. It is not necessary to rinse after using octenisan® Wash Mitts. octenisan® Wash Mitts are also suitable for washing hair.

If the patient prefers to have their hair washed with a shampoo, we recommend octenisan® Wash Lotion.
