

Fragrance-free wash mitts for cleaning and care of intact skin

## esemtan® wash mitts sensitive

### Our Plus

- specially designed for sensitive skin
- unperfumed and pH-skin neutral
- with Allantoin for additional care
- dermatologically tested by dermatest
- ready to use, no rinsing required
- nonwoven mitt made of PET & viscose

### Application area

- for gentle body washing without water
- cleaning and care in one step
- for bedside washing of the whole body
- suitable for washing immobile or bedridden patients

### Product Profile

- wash mitts
- perfume free
- contains allantoin to protect the skin from irritation

### Instructions for use

Clean the skin with the wash mitt. Make sure the skin is completely moistened, especially in the areas of the armpits, between the fingers and toes, as well as other skin folds. Rinsing afterwards with water is not necessary. If required, the packaging can be heated in the microwave (30 seconds / 600 W) or heating oven (+51°C / 5 days). Open the softpack with caution and take out the mitts, as required. To be used only for a limited period. One mitt per body area:

1. face, neck and breast
2. right arm and armpit

3. left arm and armpit
4. abdomen, front
5. right leg
6. left leg
7. back
8. abdomen, back
