schülke

For touchless application of hand disinfectants, washing and care lotions for 1,000 ml disposable bottles.

Preparation dispenser
Type KH touchless

Our Plus:

- touchless hand disinfection (magnetic field technology) resulting in increased hygiene standard
- easy reprocessing of the stainless steel pump
- manual operation by means of emergency bracket in case of empty battery
- low energy consumption enables long battery service life (up to 2 years)

Feature description

Easy and exact dosing of hand disinfectant, washing and care products.

- Dosing of the required preparations via a dosing block at the dosing pump to amounts of approx. 0.75 ml to 1.5 ml per stroke.
- The exchangeable pump is made of stainless steel and ensures a smooth preparation flow. No clogging, clotting or after-dripping.
- Casing made of matt silver anodised aluminium. Arm lever made of stainless steel.
- If required, the dispenser can be removed from the wall mounting plate, e.g. for cleaning.
- Quick filling with the original bottle.
- Easy withdrawal of the dosing pump via the front.

Requirements of the Robert Koch Institute

"The washbasins used by the staff members are to be each equipped with a dispenser for hand disinfectant and washing lotion as well as with skin-care products in dispensers and tubes...
Dispensers for washing lotions, disinfectants and towels must be easy to clean and to disinfect. Dispensers for washing lotions must be thoroughly cleaned and disinfected before being filled again."*

* RKI (German Heath Authority – Robert Koch Institute), Guideline for Hospital Hygiene and Infection Prevention, C 1.1 Hand Hygiene

Requirements of the Trade Association

The insured parties are to be provided with**...

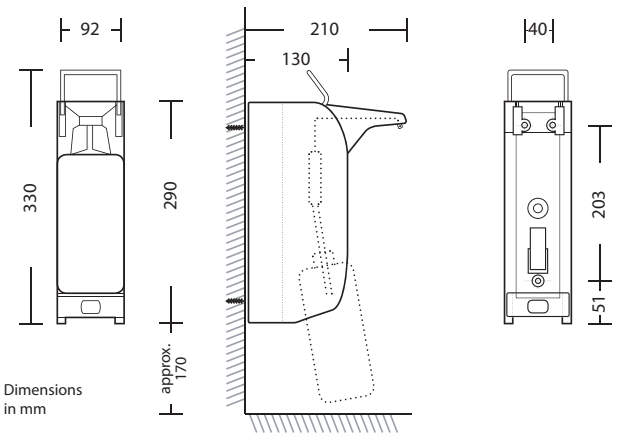
- easily accessible hand washing places with running warm and cold water
- direct dispensers for hand disinfectants, non-irritant washing products, appropriate skin protection and skin-care products and
- disposable towels

** BGR 250/TRBA 250 Biological Working Substances in Health Care and in Welfare Work. 4.1.1. Structural and Technical Measures / 4.1.1.1.

Dimensions:

Width: 9.2 cm
Depth: 21.0 cm
Height: 29.0 cm

Design with short emergency bracket for manual operation in case of empty battery.



Preparation dispenser Type KH touchless

Dispenser and Accessories

	Art. No.
Dispenser
