

MICROSHIELD[®] 5 Chlorhexidine Concentrate

Active ingredients: 5% w/v Chlorhexidine Gluconate.

MICROSHIELD[®] Chlorhexidine Concentrate when diluted can be used as a pre-and post-operative skin preparation.

- Topical antiseptic concentrate
- Available in 2 pack sizes

Application areas

- Pre and post-operative skin preparation.
- Umbilical cord disinfection.

Instructions for use

Concentrate must be diluted.

DILUTION: Add 100ml of product to 150ml of distilled water and make up to 1L with ethanol (96%).

For pre and post-operative skin preparation and for umbilical cord disinfection:

Dilute as above. Wet swab and apply to affected area for 2 minutes. Allow to dry.

Antiseptic solutions should be freshly prepared and discarded after use.

Product data

Contains Chlorhexidine Gluconate 5% w/v (equivalent to Chlorhexidine 28.1g/L).

Special advice

Always read the label and use only as directed.

- For external use only.
- Avoid contact with eyes. If in eyes, rinse well with water.
- Mild irritation may occur, stop use if it becomes severe.
- **Solutions are not for ophthalmic, bladder, peritoneal or surgeon's dip bowl usage. MICROSHIELD[®] 5 Chlorhexidine Concentrate must not come into contact with brain, meninges, middle ear or syringes and needles to be used for spinal injections.**
- Do not mix with detergents or other chemicals except ethanol as indicated.
- Do not use after the expiry date.
