

Whole-body cleansing with octenisan® Wash Lotion

octenisan® Wash Lotion is a mild and gentle antibacterial wash lotion for the whole-body including the face and hair. Suitable for all skin types, it is pH skin friendly and free of any added colour and perfumes. octenisan® Wash Lotion helps to reduce the bacterial load on the skin, hair and scalp when used as per product directions, or as advised by your health care professional.

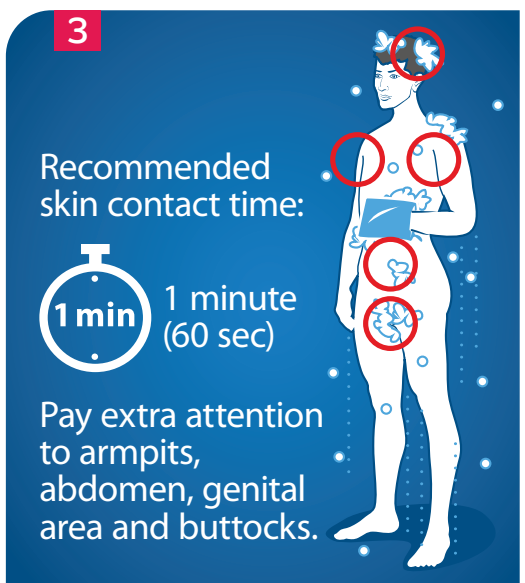

Use octenisan® Wash Lotion as you would other hair and body wash products - **ensuring contact time with skin and hair for at least 1 minute before rinsing off.**

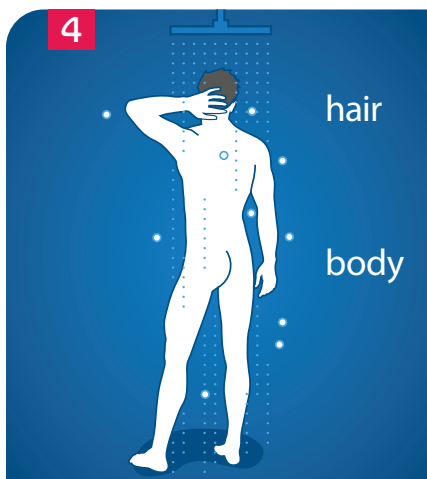

1
Completely wet hair and body.

2
Apply wash lotion undiluted to a damp and clean washcloth.

3
Apply wash lotion evenly to the entire body and hair. **Leave on for 1 minute.**

4
Rinse off thoroughly.

5
Dry with a clean towel.

6
After each shower, clean clothing should be worn.

octenisan® Wash Lotion protocol - use for up to 5 days, once daily, or as advised by your health care professional.

DAY	1	2	3	4	5
Body					
Hair					

Notes:

If octenisan® md Nasal Gel is prescribed, use for up to 5 days, twice daily.

1
octenisan® md nasal gel
Apply a sufficient quantity of nasal gel onto a cotton swab.

2
Apply the gel onto all surfaces of the nasal passage.

3
Spread the gel by gently compressing the nostrils. Remove any excess gel.

Take care not to insert the cotton swab too deeply into the nose.
