

Wash mitts for cleaning and care of the intact skin.

octenisan® wash mitts

Our Plus

- especially gentle due to additional care with allantoin
- ready-to-use, no secondary rinsing required
- easy application due to practical mitt dimensions
- free of perfume and colourings
- for decontamination of MDRO

Application area

- for whole body washing independent of washing facilities
- especially suitable for washing of immobile persons in need of care and bedridden patients on intensive care and infection units
- cleaning and care of the intact skin
- for whole body washing in case of MDRO

Instructions for use

If required, the packaging can be heated in the microwave (30 seconds / 600 W) or cooled in advance for refreshing washing (max. 24 hours at +5°C). Open cautiously the softpack and take out an octenisan® wash mitt, as required. Clean the skin and leave the impregnation solution on for at least 30 seconds.

Make sure the skin is completely moistened, especially in the area of the armpits, areas between the fingers and between the toes as well as other skin folds. Rinsing afterwards with water is not necessary.

For regular hair washing we recommend using octenisan® wash cap. If the patients do not want to do without the feeling of classical hair washing, we recommend octenisan® wash lotion.

When using the product on a long-term daily basis a regular washing with wash lotion and water (e.g. weekly) should be performed.

One mitt per body area:

1. face, neck and breast
2. right arm and armpit
3. left arm and armpit
4. abdomen, front
5. right leg
6. left leg
7. back
8. abdomen, back

Do not use in children under the age of 3.

Product data

Ingredients:

Aqua, Glycerin, Phenoxyethanol, Ethylhexylglycerin, Octenidine HCl, Cocamidopropyl Betaine, Allantoin, Sodium Lactate, Sodium chloride

Special advice

Do not apply if allergies to one of the ingredients are known or suspected. Please refrain from the application of skin caring products (e.g. skin lotion) in the context of full body cleansing with octenisan®. Do not use in combination with products containing PVP-iodine.
