Special advice

Use disinfectants safely. Always read the label and product information before use.

The product has very good material compatibility with metals and plastics. Keep away from heat and sources of ignition. Further information is available on request. The shelf-life of the opened container can be found on the packaging.

Instruction for use

Apply undiluted to the surface, wipe and allow taking effect. Ensure complete wetting and maintain the surface moist during the entire exposure time. Ensure that all visible dirt is removed before disinfection. Spray the surface from a distance of approx. 30 cm (approx. 40 ml/m²) and allow drying. For adenovirus and Mycobacterium tuberculosis, maintain the surface wet during the entire exposure time. For professional use only. Any serious incidents related to the product are to be reported to the manufacturer and competent authority. Not for final disinfection of semicritical and critical medical devices! The product can be used without gloves, provided that infection prevention and occupational safety allow this.
